SUMMARY

Computer Science undergraduate (2027) with a strong foundation in AI/ML and software development. Hands-on experience building projects in machine learning, computer vision, NLP, and data analysis using Python and popular ML tools. Strong understanding of programming, DSA, databases, and problem-solving. Eager to learn new technologies, take on challenging problems, and contribute to building practical and impactful solutions.

TECHNICAL SKILLS

Languages	Python, Java, C++
Libraries	NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
Frameworks & Tools	Flask, Git, GitHub, Notion
Cloud & Databases	AWS, MySQL

PROJECTS

ACMA – AI Content Moderation Analysis [Link] *Jun 2026 – Aug 2026*

Python • Scikit-learn • NLTK • Google Gemini API • Flask

- Developed a hybrid AI-powered content moderation system to detect toxic, abusive, hateful, and inappropriate text content.
- Integrated TF-IDF with Logistic Regression, VADER sentiment analysis, and Gemini-based contextual analysis to classify content and generate confidence scores and explanations.
- Built a Flask-based web application with structured JSON responses and fallback ML predictions for improved reliability.

Bitcoin Price Forecasting Model [Link] *Nov 2024 – Jan 2025*

Python • Scikit-learn • Pandas • NumPy • Random Forest

- Developed a Random Forest regression model to forecast Bitcoin closing prices using historical OHLCV and time-based features.
- Built an end-to-end ML pipeline covering data preprocessing, feature engineering, chronological train-test splitting, and model evaluation.
- Achieved ∼$682 MAE on a held-out test set and analyzed actual vs. predicted Bitcoin prices.

EXPERIENCE

IT Support Intern — Cynet Systems, Noida, UP *May 2025 – Jul 2025*

- Resolved 20+ hardware, software, and network tickets per sprint cycle, reducing average resolution time by 30% through systematic root-cause documentation.
- Authored 20+ internal SOPs, decreasing repeat-issue resolution time by 25% and accelerating new-hire onboarding workflows.
- Collaborated with cross-functional IT and network teams to uphold 80%+ operational reliability across multi-department infrastructure.

EDUCATION

Vellore Institute of Technology *Aug 2023 – Present*
B.Tech – Computer Science & Engineering CGPA: 8.28 Bhopal, MP

Class XII – CBSE *Mar 2022*
Seth Anandram Jaipuria School 86.2% Ghaziabad, UP

Class X – CBSE *Mar 2020*
Seth Anandram Jaipuria School 90.8% Ghaziabad, UP

CERTIFICATIONS

- Applied Machine Learning in Python – University of Michigan
- AWS Technical Essentials – Amazon Web Services
